

This may be late. My son had my computer. I drive over the road. In the past I was cut off from the outside world for 2-3 weeks at a time. XM Radio had made a world of difference in my life. No matter where I am I now have access to news, and the outside world while trying to make a living. Having the XM with me has probably saved my life several times- driving thru the middle of "no where" late at night, tired. No SAFE place to stop. My XM has kept me company <and alert>. I'm not even sure how many potential problems I've avoided by listening to the traffic channel for a city I'm heading into. I guess I'm trying to say that XM needs a reward for helping people like me out. NOT a hassle from people afraid of competition in an area or market they can't even reach! Thanks for your time. Mr. Arlice Parker
